Welcome to UNT Geography!
Introductions
Long tradition of excellence in teaching and research

Undergraduate program: 1920
Graduate program: 1995
Faculty: diverse expertise, productive scholars, highly approachable
Graduate school is challenging, but can also be very rewarding. You will grow as a scholar and develop professional networks. We have an excellent placement record. The journey is worthwhile!
Our alumni have a wide range of rewarding careers in geography, geology, archaeology, and related fields (see alumni section of webpages).
Our students excel while here:

- Classwork
- Conference presentations
- Publications
- Internships
- Academic awards
We are building on the tradition with you!
You were selected through a competitive application process.

Selective process = fewer students, enabling more effective mentoring and interaction
We expect you to, and believe you will, succeed in this **organization** by working together...
OUR ROLES INCLUDE PROVIDING: Active and effective learning environments; thoughtful mentorship; constructive feedback (evaluation); and support and encouragement.
YOUR ROLES INCLUDE: Working hard; doing well in your coursework and research; taking initiative; thinking independently; following procedures and guidelines; and embracing this opportunity.
As a student, you've got a lot on your plate. But you've also got lots of resources and plenty of people at UNT who want you to succeed. Start strong. Define your future. Follow these tips for success.

- Show up.
- Find support.
- Take control.
- Be prepared.
- Get involved.
- Be persistent.

Find resources at succeed.unt.edu.
Identify and work closely with your major professor (primary mentor), but also interact with other faculty members, as well as staff and classmates.
Develop support networks

Classmates
Friends
Family
Faculty
Staff
Communicate with us often (let us know how things are going).
Always be nice to Tami and Eva!
