Glossary of Post-Modern Terms

- Post-modernism: A critical and analytical approach to post-modern society and culture, focusing on the deconstruction of traditional values and the questioning of established norms.
- Post-modern: A designation for ideas, art, or architecture that reflect the post-modernist philosophy.
- Post-modernist: A person who supports or practices post-modernism.

Post-modernism is characterized by a rejection of traditional values and a focus on the complexities of modern society, often using irony and parody in its critique of established norms.
