Summer 8WK Session 2017
GEOG 4070/5075

China Field School
On Campus Dates: May 15, 2017 - May 17, 2017
Travel Dates: May 27, 2017 - June 12, 2017
Earn 6 SCH of UNT Credit

Students will develop skills in field observation, analysis, and interpretation for a variety of geographical, geological, and environmental problems, experience diverse landscapes and cultures in China.

As a study abroad program, the China Field School covers several topics in physical geography, human geography, and environmental science. The study site in Beijing will provide general information about China’s landform, climate, natural resources, and population, while the study sites in Yunnan Province will allow students to develop field observation, analysis, and interpretation skills. Moreover, the geographical location of Yunnan Province will allow students to better understand several important issues in Southeast Asia, such as environmental protection, international rivers, water resources, and ethnic culture.

*Open to both Undergraduate and Graduate students
