

New Geography Course for Fall 2017

GEOG 4570/5570:

Special Topics in GIS: *LiDAR* Applications

- Mondays: 6:00 – 8:50 pm, ENV 336.
- Open to both undergraduate and graduate students; 3 credit hours.
- Counts toward the GIS Certificate.
- Learn LiDAR principles, data processing methods, and applications in forestry/vegetation mapping, urban environments, and geosciences. Develop new skills needed in today's geospatial industry.
- ArcGIS-based labs and homework.
- Prerequisite: GEOG 4520/5520, or department consent.
- For more information, contact Dr. Pinliang Dong (pdong@unt.edu)
