GEOG 4570 – Special Topics in GIS: LiDAR Applications

Fall, 2017. Monday 6:00 – 8:50 PM, ENV 336
(This syllabus is for undergraduates only. See GEOG 5570 for graduate syllabus)

Dr. Pinliang Dong
Professor
Department of Geography and the Environment
University of North Texas
ENV 310B, Phone: (940) 565-2377
E-mail: pdong@unt.edu URL: http://geography.unt.edu/~pdong
Office Hours: Mondays 4:30 – 6:00 PM, Thursdays 4:30 – 6:00 PM, or by appointment.

**Prerequisites:** GEOG 4520: Intermediate GIS (or consent of department)

**Objectives**

Light detection and ranging (LiDAR) has been widely used to solve problems in the natural and built environments. This course introduces LiDAR principles, data processing methods, and applications in forestry, urban environments, and geosciences. It includes lectures, demos, hands-on exercises, Esri tutorials, and a course project. It is for those who have worked with vector and raster data using Esri's ArcGIS. Students will develop skills to effectively use LiDAR data in a geographic information system environment for solving real world problems.

**Textbook:** Handouts will be provided in class.

**Software:** ArcGIS Desktop 10.x.

**In-Class Exercises**

After the lecture session, students will work on hands-on projects, Esri tutorials, or the course project. A total of 11 hands-on projects will be provided. Results of the hands-on projects should be saved in your folder at R:\class\4570\StudentFolders\ The instructor will check your hands-on projects every Tuesday. If you miss a class, you should contact the instructor and finish the hands-on project by the following Tuesday. Class attendance and hands-on projects count 20% of the final grade. Late submission will be marked down 10% each day.

**Esri Tutorials**

Students will complete the following four Esri tutorials. Certificates of the tutorials should be saved to your student folder at R:\class\4570\StudentFolders\. More instructions on the tutorials will be provided in class.

1. Using Lidar Data in ArcGIS 10. (4.5 hours)
2. Managing Lidar Data in ArcGIS 10. (3.5 hours).
3. Managing Lidar Data Using LAS Datasets. (2.5 hours)
4. Smart Strategies for Managing Lidar Data (1 hour)

**Course Project**

Each student will complete an individual course project involving LiDAR data. Students should discuss project ideas with the instructor, identify a proper project topic, find LiDAR data for the project, and complete the project by the final week. The course project can be on LiDAR data processing and analysis methods, or any
applications of LiDAR. Each student will give an 8-minute presentation, and submit a course project report of 4-6 single-spaced pages (including tables, figures, and references). The course project report should be saved in your student folder at R:\class\4570\StudentFolders.

Schedule

<table>

| 15   | Dec 4    | Course Project Presentations (2)                                      |
| 16   | Dec 11   | **Course Project Report Due**                                        |

Grading Structure

<table>
<thead>
<tr>
<th>Class Attendance and In-Class Projects</th>
<th>20%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Four Esri Tutorials (10% each)</td>
<td>40%</td>
</tr>
<tr>
<td>Course Project Presentation</td>
<td>10%</td>
</tr>
<tr>
<td>Course Project Report</td>
<td>30%</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>100%</strong></td>
</tr>
</tbody>
</table>

90-100: A; 80-89: B; 70-79: C; 60-69: D; 0-59: F. A minimum grade of "B" is required for the GIS Certificate.

Extra Credit

The Department of Geography does not allow extra credit assignments (work not specified on a course syllabus).
**Academic Dishonesty**

Students caught cheating or plagiarizing will receive a "0" for that particular assignment or exam. Additionally, the incident will be reported to the Office of Student Rights and Responsibilities for further penalty. According to the UNT catalog, the term "cheating" includes, but is not limited to:

a. Use of any unauthorized assistance in taking quizzes, tests, or examinations;
b. Dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments;
c. The acquisition, without permission, of tests or other academic material belonging to a faculty or staff member of the university;
d. Dual submission of a paper or project, or resubmission of a paper or project to a different class without express permission from the instructor(s); or
e. Any other act designed to give a student an unfair advantage.

The term "plagiarism" includes, but is not limited to:

a. The knowing or negligent use by paraphrase or direct quotation of the published or unpublished work of another person without full and clear acknowledgment; and
b. The knowing or negligent unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials.

**Accommodations**

The University of North Texas makes reasonable academic accommodation for students with disabilities. Students seeking accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide you with an accommodation letter to be delivered to faculty to begin a private discussion regarding your specific needs in a course. You may request accommodations at any time, however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. For additional information see the Office of Disability Accommodation website at http://www.unt.edu/oda. You may also contact them by phone at 940.565.4323.

**Classroom Courtesy**

Please follow these guidelines to avoid disrupting the class:

1. Turn off cell phones before arriving.
2. Do not arrive late or leave early (except for a bathroom break or emergency).
3. Do not sleep or eat during class.
4. Do not work on other assignments during class.
5. Do not talk when the instructor is lecturing, unless prompted for feedback by the instructor.

**Course Evaluation**

You will receive an email with a link to the UNT Student Perceptions of Teaching (SPOT) Course Evaluation by the end of the semester.
